

## 2020 Restriction Amendment Survey Results

ETHA Restriction Amendment Survey was live in July 2020 and available for all properties in Eagle Trace to respond to online and on paper. Information regarding this survey was printed on individual fliers and distributed by hand to each property prior to the Survey going live. The Survey was an informational tool used to gather opinions from the neighborhood about popular ideas for changes to the aesthetics of our neighborhood, not an actual vote. All results were collected and verified by the 2020 ETHA Restriction Review Committee.

112 of the 195 properties in Eagle Trace responded to the survey for a total response percentage of 57%. Amendments cannot be made without responses from at least 130 individual properties (66-2/3%).

### Survey Results:

\*New Restriction\* to place conditions on Leasing ETHA properties: 112 responses, 66% approve, 34% oppose
